## My Job Board Job Posting Network

Do you have an information-only careers page on your website? Many job seekers expect to be able to find relevant jobs and apply directly from your site. With My Job Board you can promote jobs directly from your site, with no setup required.

Example of My Job Board:

A screenshot of the AxiomLearning My Job Board interface. The header shows the AxiomLearning logo. Below it is a section titled "Join Our Winning Team!" with the subtext "Start Your New Career Today!". There is a search bar with the placeholder "Search for Jobs", a dropdown menu for "Select Location", and another dropdown menu for "Select Category". A blue "Search" button is to the right. Below the search bar, it says "Showing 1 - 6 of 6 jobs". The main content is a table with three columns: "Role", "Location", and "Category". Each row represents a job posting and includes an "Apply Now" button.
